Post Office Safe Stolen

HAMBURG, Ark. (AP) - Postmaster R. L. Davis of Fountain Hill said Tuesday that someone had stolen the Post Office's 1,000-pound safe.

The back door and an inner door of the Post Office had been broken, and the safe was apparently carried off in a truck, officials said.

Davis said the safe contained money order forms, a stamping machine, stamps, Post Office records and a small amount of cash.

### Invention Became Slightly Popular

BOSTON (AP) - Patent No. 174,465 was issued 90 years ago this week to a man named Alexander Graham Bell.

Since then Bell's invention has become slightly popular.

The Bell Telephone Co. reports there are now 182 million telephones in the world, with 76 million of them in the United States.

### Winds Whip Oregon's Coast Line

Gale-driven rains whipped Oregon's coast, floodwaters isolated a southern Georgia town and residents in the Dakotas continued to dig out from their recent four-day blizzard today.

Winds measured at 63 miles per hour lashed Cape Blanco, Ore., Tuesday, where 7.26 inches of rain fell in 24 hours.

The Weather Bureau said gale warnings were up along the Oregon Washington coast through today, with locally heavy rains forecast as far south as Northern California.

The rain spread inland to Idaho and western Montana, with mountain areas getting light doses of snow.

In Newton, Ga., waters from the surging Flint River virtually cut the town off and state troopers were called in. The water covered Georgia 91 some four miles from town, cutting Newton's last artery to the outside.

Downtown Newton has been under water since Monday.

In North and South Dakota, it was sunny and calm Tuesday as residents continued removing the snow blanket brought by a four-day blizzard, described as one of the worst in recent times.

The South Dakota Civil Defense office estimated that the blizzard killed 45,000 cattle and 13,700 sheep. Director Maj. Gen. Duane L. Corning said hard-hit Ziebach County alone had losses of 10,000 sheep and 6,000 cattle.

Snow continued to block the Northern Pacific and Great Northern railroads' main lines, and the Northern Pacific said it might have to use dynamite to shatter snowdrifts pounded hard by stinging winds.

Deep-sea divers make a distress signal by holding up four fingers or rapping on an object four times.

### Peace Corps Going to More Nations

HOUSTON, Tex. (AP) - This year will hopefully see e Peace Corps members in five or six additional countries, says Jack Hood Vaughn, the new director of the corps.

Vaughn also said at Texas Southern University that one out of four Peace Corps volunteers drops out during training and one out of 10 drops out before the two-year hitch is up.

### Beaten Archbishop Out of Hospital

SAN FRANCISCO (AP) - Archbishop Joseph McGucken, who was beat up and robbed by two youths Feb. 26, has been released from a hospital.

Tornadoes strike most frequently in the four-state belt taking in Texas, Oklahoma, Kansas and Nebraska, as shown on Newsmag of annual averages throughout the United States. But the devastating wind cones can range all over the map, striking unexpectedly almost anywhere in the country. The cost in death and property damage is high. In April of 1965 alone, 45 tornadoes raked the Midwest leaving in their wake 243 dead, some 5,000 injured and well over \$200 million in property damage to businesses and homes.

## Planning Money for Arkadelphia

WASHINGTON (AP) - A \$9,000 public works planning advance has been awarded to Arkadelphia, Sen. John L. McClellan, D-Ark., announced Thursday.

The advance is to be used for improvement of sewage facilities in the city, he said, and is expected to ultimately abate river pollution.

Construction is scheduled to begin in 1967, he said.

## Beaten Archbishop Out of Hospital

SAN FRANCISCO (AP) - Archbishop Joseph McGucken, who was beat up and robbed by two youths Feb. 26, has been released from a hospital.

The Roman Catholic archbishop, 64, expressed compassion Monday for "those poor fellows" who accosted him near his living quarters in San Francisco's fashionable Pacific Heights district.

He also voiced firm resolution not to walk alone again at night.

# Junior Legion Auxiliary Holds Coffee Day

LAST SATURDAY WAS COFFEE DAY AT JOE'S CITY Bakery, held by the Junior Auxiliary of the American Legion Leslie Huddleston Unit 12.  
SHOWN SERVING COFFEE, STANDING LEFT TO right: Pam Butler, Marilyn Harris, Juane Reynolds and

Margie Royston.

OTHERS NOT PICTURED WERE MARLA JONES, Linda Luck, Jeanie Pruden, Cathy Felld, Martha Bader and Mary Neil Williams.

THE COFFEE NETTED THE GROUP \$15.00.

James Stewart was deep in conversation with his onetime agent, Lew Wasserman, now Jimmy's sometime boss as head of Universal Studio. The whole new generation of studio heads was present; Mike Frankovich of Columbia, Robert Weisman of MGM, Richard Zanuck of 20th Century Fox, Howard Koch of Paramount.

There was plenty of pulchritude to catch their eyes: Donna Reed, Loretta Young, soprano Anna Moffo, Mary Tyler Moore, Julie Andrews.

The most awed person in the room seemed to be Miss Andrews. "My goodness," she said in her best Poppins style. "Think of all the history in this room!"

The hour of 8 was reached and visitors were shooshed out so the distinguished guests could make their grand entrance. Gen. Sarnoff, vigorous on his 75th birthday, led the march through the ballroom.

The emcees' emcee, Bob Hope, explained the reason for the Milestone Award to Gen. Sarnoff: "He's America's leading motion picture exhibitor."

Hope was in good form: "Gen. Sarnoff is an electronic genius; he can even tune his own color set... On our set Dr. Kildare is green enough to be on 'The Addams Family'."

The producers handed out other awards — to "The Sound of Music" as the best produced movie and "My Name is Barbara" as the best produced television show. The latter was a CBS show, but that didn't spoil the general's birthday.

## CHATTER

By: "BILL"

We suggest you mark your calendar — Thursday, March 10, 12:30 p.m., Hope Country Club.

Members of the Daffodil Garden Club are having their annual Dessert Bridge and style show. Tickets are only \$1.25. I know you will enjoy playing bridge and seeing all the new fashions for spring '66.

Modeling for us are Georganne Hair, Betty Wilhite, Patty Manus and Martha Leim. We had fun dressing them and do hope you have fun watching the show.

And now for the Commercial: We are completely sold on those little sheath dresses. They come in pastel colors, are simple and unadorned but cut to fit beautifully. Most of them have a belt, but you don't have to wear it unless you care to, some have A-line skirts and some are slim as a pencil. With your sheath wear long, colorful bead, short white or black gloves, a small straw bowler and... you are ready to go-go.

Come Spring, and we just have to have a new suit. There is just no getting around it, a suit will take you more places than any other garment. We would like to show you the Korset of California cotton suits both in fabric and knits. The colors are basic, navy and black with a few pastels, the sizes are both junior and regular and when properly accessorized, they look like their more expensive sisters!

We have more things to tell you about, but we would rather SHOW you, so we will be looking for you at **Raley's Style Shoppe** 523 West 3rd.

## Births

Mr. and Mrs. Orville Bright, Longview, Tex., are the parents of a son, born Tuesday, March 1. He weighed 4 pounds, 11½ ounces and has been named Richard Anthony. Mr. and Mrs. E. O. Bright are the paternal grandparents.

## Woman Cosmonaut Is Promoted

By THE ASSOCIATED PRESS MOSCOW (AP) — Valentina Tereshkova, the only woman cosmonaut, has been promoted to the rank of major in the Soviet air force.

The promotion was disclosed today as the Soviet Union celebrated International Women's Day.

She was a lieutenant when she made her 48-orbit flight in June 1963. She later married Col. Andrian Nikolayev, a fellow cosmonaut.

## Bob Thomas at the Movies

By BOB THOMAS AP Movie-Television Writer HOLLYWOOD (AP) — No one was quite sure why Gen. David Sarnoff was being awarded the Screen Producers Guild's Milestone Award, but all agreed it was a good idea.

The Milestone is generally presented to a film pioneer. Gen. Sarnoff is an electronics pioneer, having founded the Radio Corporation of America. Ten years ago, it would have seemed unthinkable for Hollywood to be passing out honors to the man who did as much as anyone to bring television to the nation. Times change.

It's always fun to join the members of the dais at the producers' banquet before they face the crowd at the Beverly Hilton International Ballroom. Then you catch the big names at their ease.

Adolph Zuker, a crickety 93, was talking movie business with Kirk Douglas. Samuel Goldwyn, an alert 83, chatted with Lucille Ball, who got her first Hollywood job as a Goldwyn girl.

## HELEN HELP US!

— by Helen Bottel —

### Does Warning Slow Sales?

Dear Helen: I see they're getting their warnings on the cigarette packages. Do you think this will slow sales? — Doubtful.

Dear Doubtful: Not right away but over the years — probably.

Just now, sellers report, the cigarette packages with the printed warning are in big demand — People know they're fresher. — H.

Dear Helen: I don't return things to stores very much, but when I do it's for good reason, and I expect to have the merchandise exchanged. After all, this is part of the service, isn't it?

Well, I bought a hat. When I got it home, my husband said it would either go or he would. You know men — about that, they're very opinionated.

So I took it back next day, hoping to get a credit slip. The clerk said "No hats exchanged. It's a state law." I pointed out that I had only tried it on once at home, and a lot more people than me had put it on in the store, but she said anything that touches the body can't be exchanged. I mentioned that dress also touches the body but she just looked over my head and repeated, "Sorry, it's the law."

Have you every heard of anything like this? — Mad Hatter

Dear Mad: No I hadn't heard of anything like this — but I've learned a lot, thanks to your letter!

I first called the Better Business Bureau, whose manager said he wasn't aware of a state law regarding exchange of hats though many stores will not allow the return of undergarments and swim suits. He assured me that NO store is required to take back or exchange merchandise, unless it is defective. This is done as an extra service to promote good will.

Next I called the chain department store where you got your hat, and was told most definitely that "a California State law" ranks hats with "personal wear" (bras, girdles, swim suits, panties, men's shorts, etc) and if returned, must be discarded. This to protect the customer. "Naturally," he sniffed, "we won't take these things back simply because a woman has changed her mind."

Several other hat shop managers contacted said they had never heard of such a "law," they WOULD exchange hats, and I gathered those hats would go back on the racks.

So then I called the Department of Public Health and got the real dope: There is no such thing as a State law governing the returnability of ANY wearing apparel. This is up to the individual store, and it should post notices of its policy in each department. Many stores insist that undergarments sales be final, but the gal at the Health Department said, "I have never heard of the rule applying to hats."

## Kentucky Is Nation's Best in Cage Poll

By THE ASSOCIATED PRESS

Kentucky's Wildcats, who narrowly missed a perfect regular season, scored in a runaway in the final Associated Press major-college basketball poll for 1965-66.

The Wildcats were voted No. 1 by 39 of the 48 sports writers and broadcasters on AP's nationwide panel. Duke climbed back into the second spot ahead of Texas Western, which, like Kentucky, suffered its only loss of the season last Saturday night.

Kansas's Big Eight champions jumped from sixth to fourth, St. Joseph's of Pennsylvania also advanced two places to fifth, and Cincinnati climbed from 11th to seventh.

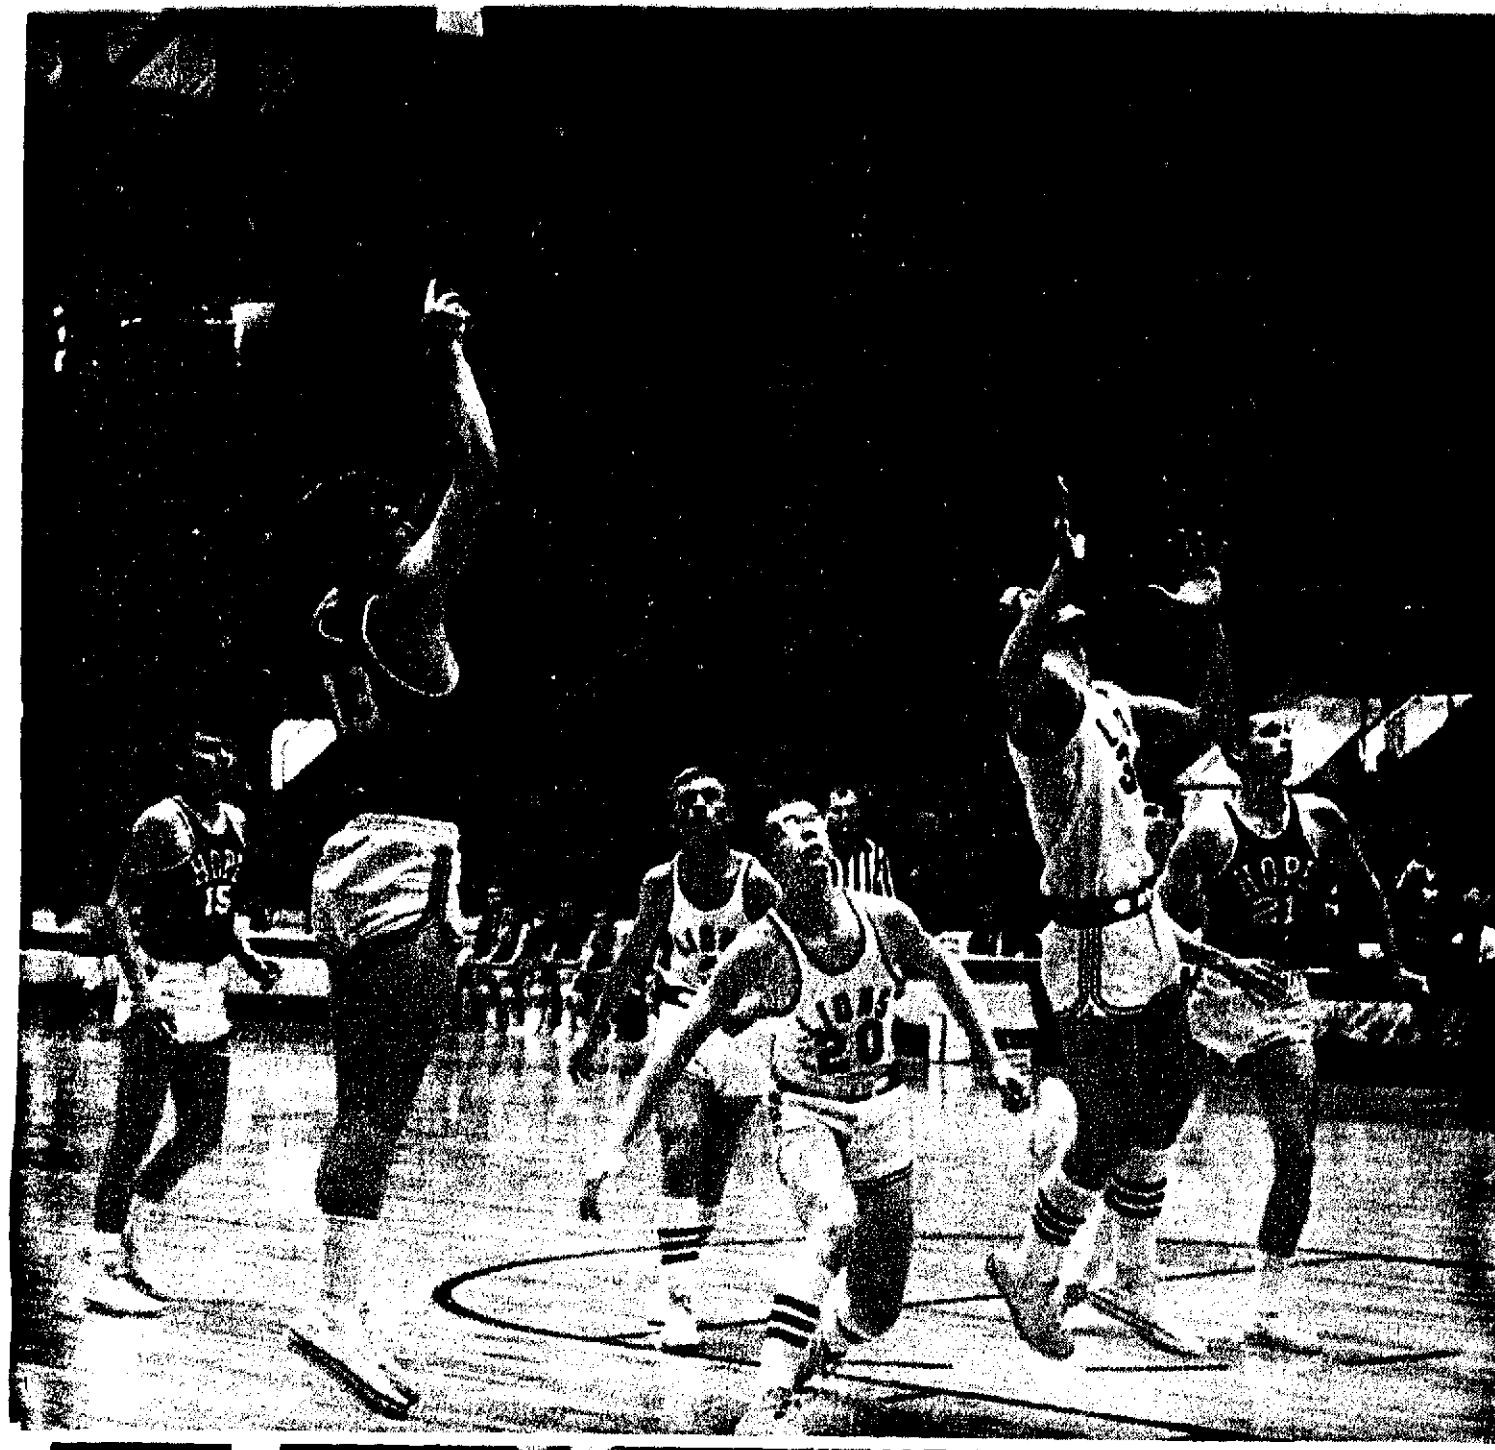

Others in the final rankings were Loyola of Chicago, which slipped from fourth to sixth; Vanderbilt, which dropped three spots to eighth; Michigan in ninth and Western Kentucky in 10th.

Michigan, winner of the Big Ten title, regained a place in the ratings and Western Kentucky made the Top Ten for the first time.

Voting was based on games through Monday night. Kentucky was topped by Tennessee 69-52 Saturday night and Texas Western lost to Seattle 71-72. Both rebounded Monday night.

The final Top Ten records through Monday and points on a 10-9-8-7-6-5-4-3-2-1 basis:

## Bobcats Edged in State Meet in Overtime

By LARRY DON WRIGHT  
Hope Star Sports Writer

The Leachville Lions came through to score with one second left in overtime play and edged out the hustling Hope Bobcats, 72-70, in the first round of the AA State Basketball Tournament in Little Rock, yesterday.

Bobcat Ronnie Ingram sank a jump shot to tie things up at 70 all with less than 10 seconds showing on the clock. But the Lions took it in fast and a long pass got the ball over the unexpected Bobcats and in to Joe Sharp near the Leachville goal. He merely took a dribble or 2 and put the ball up for the winning points as the buzzer sounded.

The two teams fought back and fourth throughout the game with neither holding more than a five-point lead. And for the Bobcats it was a heartbreaking defeat after playing such an outstanding game against a team which was supposed to blast them off the court.

The Cats combined desire, determination, and teamwork for one of their finest performances of the year. If they had gotten the break at any one of innumerable times they could have easily won.

It was evident from the start that the Bobcats had come to play ball as they popped the net for four points before Leachville could get on the score board.

Hope led by as many as five points through the first quarter but the Lions battled to even it up before the end of the period, 15-5.

Leachville jumped ahead in the next period and quickly rose to a five point advantage. But Hope stated a come back of its own in the last five minutes of the half.

Then the Cats pulled off their patented fast break with just seconds to go and the score tied. Ingram got the ball on the run at mid court and dribbled on in for a lay up as the buzzer sounded and allowed Hope to go ahead 33-31 at half time.

The Lions went ahead early in the third period and remained on top most of the quarter. Leachville had a 47-45 margin entering the final stanza.

At that point the Lion's big center Tommy Robins already had accounted for 21 points as they would simply feed the ball over the Hope defense to Robins under the basket.

The pace quickened and the pressure grew more intense as the fourth quarter ticked away. Then with 5:28 remaining the Cats lost their chief rebounder in Stan Parriss who left the game on fouls.

The lead swayed back and fourth throughout that fourth period. It changed hands 12 times in that quarter alone.

With 1:32 left and Hope leading 63-62 Robins left the game via the foul route. Things looked even brighter for the Cats.

But suddenly the Bobcats found themselves trailing by one

and only ten seconds showing. Bobby McGill was at the foul line with two shots.

He missed the first but then came back after a timeout to sink the second and cause an overtime play off. The score at the end of regulation play was 68-66.

Hope scored first on a jump shot from the side by Ingram with exactly two minutes to go.

But Leachville came back to tie it up again with 1:44 left when Lion Ronnie Keith sank both of his 1-1 free throws.

Then the Lions went ahead with 33 seconds showing, 70-68, on a little shot from underneath by Sharp.

Hope managed to even it up again but they didn't foresee the last second fast break by the Lions to win it.

Everyone in Barton Coliseum yesterday afternoon however left convinced of one thing. District 4AA plays just as tough a caliber of basketball as 2AA. It has become an accepted fact that 2 and 3 AA overshadow 4-AA so much that Hope wouldn't be able to stay on the court with Leachville.

The Lions are the first place team from 2AA while Hope was number three in Region 4AA.

Ingram scored 31 points which should give him a serious bid for All-State honors. Behind Ingram came Parriss with 11, McGill with 9, David Griffin with 9, Dennis Ramsey with 6, Larry May with 2, and Eddie Aslin with 2.

Robins of Leachville was high point for the game with 34.

The game was a fitting tribute to the 65-66 Bobcats who have shown local fans a lot of top notch basketball. It was typical of the desire they've shown all year and it proved that as fine a quality of basketball is played in this area as any where in the state.

Bobcat Coach Billy Mitchell will lose eight of his traveling ten squadmen to graduation and next year's team will have a hard time replacing the team that finished their season yesterday afternoon.

## Kelso May Never Race Again

MIAMI, Fla. (AP) — Mrs. Richard C. duPont said Tuesday night it is possible that Kelso, five times Horse of the Year, may never race again.

But she said the extent of the 9-year-old gelding's injuries won't be known until today.

Trainer Carl Hanford said that Kelso almost certainly will not race at Gulfstream, where he had hoped to become the first thoroughbred to top the \$2-million mark in earnings.

Hanford said Kelso rapped his ankle several weeks ago and the trouble developed slowly. When it was discovered Monday, Kelso was scratched from the \$50,000-added Drunk Handicap at Gulfstream. Since then, Hanford said, doctors discovered the injury was more serious than it seemed at first.

Kelso has earned \$1,977,896 in his brilliant career.

## Battle Shaping in Opening of NCAA Tourney

By TED MEIER  
Associated Press Sports Writer

The battle of Kentucky is shaping up for Iowa.

That is to say the University of Kentucky Wildcats, the top-ranked team in The Associated Press college basketball poll, will meet the Western Kentucky Hilltoppers in the Mid-East regional final of the NCAA championship tourney at Iowa City, Iowa, Saturday night if all goes well.

There are just two obstacles. The Wildcats, 24-1, have to defeat Dayton, 23-4, and the Hilltoppers, 24-2, have to overcome Michigan, 17-7, in Friday's doubleheader at Iowa City.

The Hilltoppers, who crushed Chicago Loyola 105-86 at Kent, Ohio, Tuesday in a first-round NCAA game, would like nothing

# Faubus Will Take Money for Big House

By JOHN R. STARR  
Associated Press Writer

LITTLE ROCK (AP)—Gov. Orval Faubus said today he will accept money raised in a drive to pay for the house he is building at Huntsville.

But he refused to tell how much money was collected or how it was collected.

The governor called a secretary into his office and dictated a statement after news- men asked him about the fund.

"A certain amount was collected from a rather large number of contributors," the statement said. "The fund was de- livered to me by one individual with a complete list of those who contributed and the amount."

"I am advised that those who were contacted were told that it was to be completely voluntary and that no one should feel any obligation whatsoever to make any contribution should he not wish to do so."

"The amount delivered to me will be deposited in the First National Bank of Huntsville and the funds will be applied to the cost of construction of the house."

Faubus said he would make information about the fund available to the Internal Revenue Service, but that he would release no further information on the matter to the public except perhaps the number of contributors.

The Republican Party has said the house will cost \$280,000. Faubus once estimated the cost at \$70,000. He said today that it may exceed \$70,000 but that it would not exceed \$100,000.

Asked if he felt there was anything wrong with a public official's acceptance of such donations, Faubus said:

"I've had a standing offer for jobs for the last five years, at least three firm offers. The minimum salary was \$30,000 a year. I could have built a house and paid for it if I had been in private employment for the last six years."

Faubus said that donations had been made to other public officials in Arkansas, and he said, "I see nothing particularly wrong with this because the salaries of state and county officials in Arkansas are so ridiculously low."

Although he would not discuss the amount of the fund, Faubus said it would go "a long ways" toward paying off a \$40,000 loan he made recently to help pay for the house. He had not revealed the existence of the loan before.

Faubus said he borrowed the money from an out-of-state firm and that he was sure the mortgage was recorded at Huntsville.

The first word of the house fund drive came two weeks ago while the governor was in Florida on vacation. Some contributors who were contacted by newsmen said the donations were solicited by members of the governor's personal staff.

Faubus, when he returned, denied knowing anything about the fund and he has not talked about it until today.

He had revealed earlier that more than \$3,000 had been contributed in small amounts without solicitation.

# Faubus Scored for Taking Home Gifts

LITTLE ROCK (AP)—Republican Winthrop Rockefeller used an editorial from Gov. Orval Faubus' weekly newspaper at Huntsville as the starting point for his latest attack on the chief executive.

After Faubus had said Tuesday that he would accept money which had been raised by private citizens to help pay for his home under construction at Huntsville, Rockefeller issued a statement:

"It is most unfortunate that he is not following the example which the governor hypocritically published in his own newspaper last month."

Rockefeller referred to "A Glorious Legacy," an editorial in the Feb. 3 issue of the Madison County Record, of which Faubus is publisher.

The editorial praised George Washington for turning down an offer of \$40,000 worth of stock from a company which was benefited by a river project the nation's first president directed.

The Republican quoted the final paragraph of the editorial: "The scrupulous ends to which Washington went to avoid a conflict of interest should forever serve as a guide for all holders of public office."

# GI Accused as Spy Gains His Release

By HARRY F. ROSENTHAL  
LEAVENWORTH, Kan. (AP)

George John Gessner drew his first free breath after five years in government custody and said: "Justice delayed is justice denied."

The 29-year-old former soldier showed no elation at his sudden and unexpected release from the U. S. penitentiary where he has been since his conviction June 4, 1964, of giving nuclear weapons secrets to the Soviet Union. He was the first convicted under the Atomic Energy Act.

An appeals court last year nullified Gessner's conviction and life sentence because it found his confession — basis of the government's case — was made involuntarily.

U. S. Atty. Newell George stood before the same three judges Tuesday and declared, "Without the confession we do not have sufficient evidence to go to trial." He filed a motion to dismiss charges against Gessner and a few hours later, Gessner was free.

Asked why he had signed the confession, Gessner replied: "Because of continued interrogation month after month and promise of total immunity."

"Of course, it was not true," he said.

"How can a man have plans when he has been locked up five years or better?" said Gessner when asked about his future, "I hope to return to college — if any college will have me." If he does go to school, he said, "It is not my intention to restrict my political opinions."

Gessner, a private first class, was a nuclear weapons specialist at Ft. Bliss, Tex., when he deserted Dec. 6, 1960, and went to Mexico City. The confession, introduced at his trial, said he met with officers of the Soviet Embassy on several occasions and gave them all he knew about mechanisms of atomic cannon. He was arrested in Panama City, Panama, March 23, 1961, and has been in custody since then — one year of it for desertion.

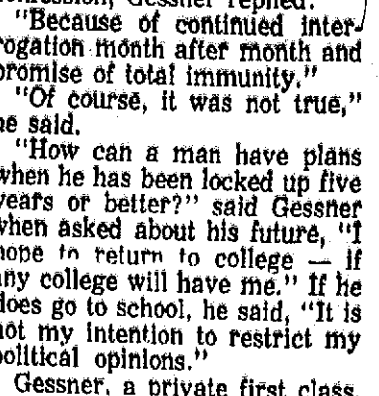

The confession, Gessner said, was obtained through coercion and fraud.

"A man tends to get justice in proportion to the thickness of his wallet and inversely to the power and prestige of the accuser," Gessner said.

He was reminded that his court-appointed attorneys received no fees.

"One swallow doesn't make a spring and one prisoner breaking free through adequate counsel doesn't change things for the hundreds of thousands of other men still in prison because they were not adequately represented," Gessner replied.

Oswald Jacoby asks: "What do you think of South's vulnerable four-spade bid?"

Jim: "It looks like the sort of bid you would make so I'd better not say anything too unfavorable about it. I assume the game was duplicate."

Oswald: "It was duplicate so all I risked was a bottom score. Actually, I came out with a top score to end all top scores. I had planned to run to five diamonds if West doubled me at four spades but as you can see he did not double until after East had rebid to five hearts and my partner had raised me to five spades."

Jim: "You can't blame your partner for raising you."

Oswald: "No, I couldn't. I looked over dummy and started to plan my alibi in case I went down for an astronomical figure. Then I rustled the heart and led out my king of spades. East won with the ace and returned the jack of clubs which was allowed to hold the trick. Then he led another heart. I ruffed; drew trumps and was able to make my contract by discarding dummy's two remaining clubs on my long diamonds."

Jim: "Even two down would have been a good score. East could make five hearts in top tricks and if he had bid six hearts he would have made that by taking a club finesse. So minus 500 would have been just about as good as plus 850. Was West a very bad player?"

Oswald: "West was an expert. It never occurred to him that I would have bid four spades on a four-card suit. Therefore he saw no reason to overtake his partner's lack of clubs."

## TODAY'S QUESTION

Instead of rebidding two hearts your partner rebids two diamonds. What do you do now?

## Way to End War Remains Unsolved

By JAMES MARLOW  
Associated Press News Analyst  
WASHINGTON (AP) — Sen. J.W. Fulbright is a kind of classic example of all those critical about the war in Viet Nam but snagged on the dilemma of how to end it.

They have ideas on what to do or not to do — as some showed before the Senate Foreign Relations Committee, of which Fulbright is chairman — but are hazy on solutions.

Two speeches by Fulbright, an Arkansas Democrat, one last June 15 and one March 1, and a statement Sunday night show the dilemma of the critics of the Johnson administration, which is in a bit of a dilemma itself.

President Johnson tried to get the Communists to negotiate. Having failed, he must continue the war, he feels, without stepping it up to such a degree that Red China might feel impelled to jump in.

In June, Fulbright said complete victory would be too costly but unconditional withdrawal from Viet Nam is unthinkable because of the disastrous results.

Withdrawal, he felt, would betray this country's obligations to people we have promised to defend and weaken their belief in U.S. guarantees.

At the same time he was against stepping up the war, although how else the Communists can be convinced to quit fighting is difficult to imagine.

He suggested negotiations to end the war, with major concessions by both sides, although admitting Johnson's efforts to get the Communists to negotiate wound up nowhere.

Nevertheless, Fulbright envisioned a compromised peace and after that, he proposed, the United States should join with others in a large program for the social and economic development of Southeast Asia.

(Johnson had proposed just such a program weeks before Fulbright did.)

Almost a month before Fulbright's June 15 talk Johnson said the Red Chinese are bent on dominating all Asia but on March 1 Fulbright came up with another speech, this one proposing how to deal with Red China.

He suggested an agreement with Red China to neutralize all of Southeast Asia although there was nothing to indicate Red China would ever consider such an agreement.

One such an agreement was made, Fulbright said, the United States and China should pull back all their forces. But Red China does not have forces on the soil of other nations.

How such an agreement could be policed to prevent Red Chinese cheating would be monumental in itself. Fulbright did not go into details on that.

Fulbright announced Sunday night that his Foreign Relations Committee will open hearings Tuesday aimed at increasing public knowledge about Red China. He said there is a real danger that the "open-ended" Viet Nam conflict will lead to war between the United States and Communist China.

Americans should be "open-minded and inquisitive" and try to learn all they can about the Chinese, he said.

Last Thursday, two days after Fulbright proposed his neutralization idea, Red China linked Johnson and his critics together as "fools" and said there was no fundamental difference between them about continuing the Viet Nam war.

## Profits High But Market Is Gloomy

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP) — Profits were never higher but the stock market is eyeing gloomy predictions that the earnings climb is tiring. Some even fear the trend may be reversed. The figures themselves, however, scarcely bear this out. They get bigger all the time.

The market shrugs these off as past history and tries to guess the future. What is feared is that profits will be cramped by several developments.

These include rising production costs as wage scales mount and payroll outlays are hiked by higher Social Security taxes; tight money proving both expensive and restrictive for business expansion plans and current activities; high break-in costs for new plants coming into operation or, on the other hand, unprofitable operation of aging plants as stepped-up production schedules push against the limits of capacity; and labor shortages that spell more overtime, less production, or the hiring of less efficient help.

All seem likely to happen. And in the realm of probability are higher tax payments this year through a speed-up in collections, and maybe higher tax rates before the year is out.

Predictions that the climb in profits is petering out are based on an interpretation of the latest figures, rather than on the figures themselves.

Actual results show that in the final three months of 1965 manufacturers' net income after taxes advanced 19 per cent over their profits for the preceding quarter. The fourth quarter net earnings also were 16 per cent above the fourth quarter of 1964. This year-to-year gain was about the same as set up in each of the first three quarters of 1965.

With some companies advancing as much as 40 per cent in profits last year, what is the reasoning behind the predictions of a letdown?

In addition to the forces outlined earlier, the statisticians at the First National City Bank, New York, point to the season trends. They say the 19 per cent advance in the fourth quarter of 1965 from the July-September period was only slightly more than seasonal. That is, profits are usually highest in the final months, while the summer often sees a lag.

This only slightly more than seasonal advance at the end of year is contrasted to a considerably more than usual advance in the April-June quarter and a much better than usual summer performance.

The moral the statisticians draw is that in the spring and summer profits were really swinging. But at year's end either the boom was tiring, or costs were mounting, or both.

Industry is still producing at near record levels in this first quarter of 1966. But what the stock market is wondering is: How much of the feverish activity is being turned into after-tax profits?

Alaska's capital of Juneau is about 2,900 miles from the State of Washington.

### Seeking to Save Review Magazine

NEW YORK (AP) — William Buckley Jr. has sent out an SOS to save his voice of American conservatism, "National Review" magazine.

Buckley is asking subscribers to chip in \$150,000 to pay the magazine's creditors.

"The fact of the matter is, we are dead broke," Buckley said in a letter to 100,000 subscribers. He said the magazine had a deficit of \$100,000.

Current from the mouth of the Amazon River can be seen about 200 miles out at sea.

### Perverse Playmates

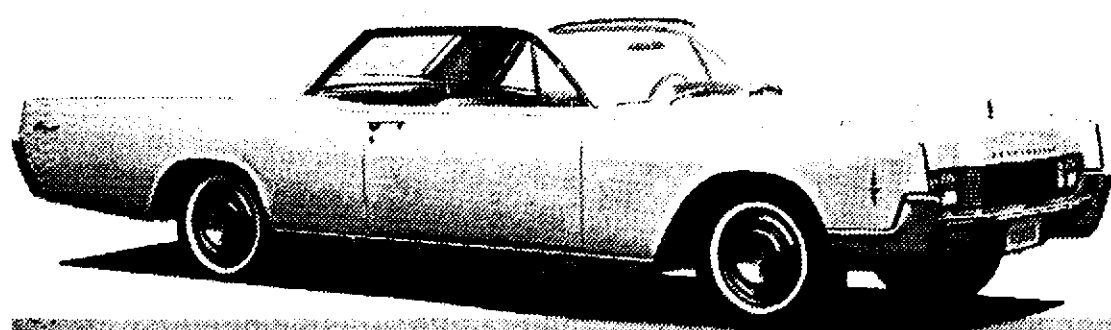

A five-year-old boy had just been vaccinated and the nurse prepared a bandage to place over the spot on his arm.

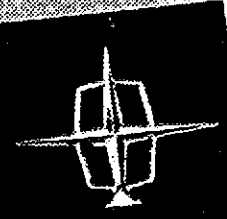

"Nurse," said the youngster, "will you put it on my other arm, please?"

"But I must put it over the spot on your arm that is going to be sore," explained the nurse. "You see, I'm trying to protect it so your playmates won't hit it."

"That's why I want it on the other arm," declared the lad. "You don't know my playmates!"

Post Office Prayer

There it was, a large manila envelope among the rest of the mail. Pasted across the top was a white strip of paper bearing the postmark and, in large red letters, "In God We Trust." This, we thought, is peculiar. Hasn't the Post Office Department heard that the U. S. Supreme Court has banned God from all public affairs and decreed a strict separation of church and state?

At first glance it appeared to be a simple case of, in this instance, the right hand not knowing what the left hand had done.

Or could it be that, with the recent snows and blizzards piled on top of all its other, internal trouble, the Post Office Department feels itself in need of some Extra Help in delivering the mail? — Lynchburg (Va.) News

From Moscow comes word that six chemical plant officials were put on trial for polluting the Volga River and killing the caviar-producing sturgeon. We should offer the Soviets some of our Chattahoochee catfish. They can't produce caviar, but they're battle-hardened. — Atlanta (Ga.) Constitution

T-Day (for tax)

Some day an enterprising bank is going to apply the principle of the Christmas Club to another date on the calendar when savings are needed urgently, and start an Income Tax Club which pays off April 15. — Augusta (Ga.) Chronicle

He Warned Them

A Tennessee judge hit on a prime solution to the hot check problem. He ordered a defendant to run a notice in a newspaper stating, "anybody that takes a check from me ought to lose their money."

Should it become the general practice of all the courts in the land, the warning ads would make outstanding local reading matter. The plan would sell lots of newspapers, too. — San Antonio (Tex.) Express

It's A Complex And Then Some

Just about the saddest sight in the world is that of the old folks who have nothing to do. It is matched only by the plight of the boys and girls who have no one to watch over them. Distressed at both, Prof. Franz Schuster of Darmstadt, Germany, has set up his new orphanage (a private philanthropy) just across the lawn and a stone's throw away from the old folks' home. They share the same kitchen and, in case of illness, the same sick ward.

Thus the old folks acquire some grandchildren — but none of the responsibilities. And the children, who have foster parents in the orphanage, pick up some grandparents as well. The family circle, broken twice, is welded together again to the lasting advantage, we would think, of all its fragments. Like the professor he is, Prof. Schuster calls this a "social complex." It is that, for sure, but not so complex that a "stroke of genius" would not be a better description. Imagine finding in these two "minors" signs of the ingredients of a strong, enduring "plus." — Charleston (W. Va.) Daily Mail

The princess and her husband, Lord Snowdon, had been in Hong Kong for a British sales week.

## Train Blast Levels Homes at Corning

By TOM DYCARD

CORNING, Ark. (AP) — A boxcar loaded with 175mm artillery shells mysteriously exploded near here early today with a force felt in three states. The predawn blast gouged a crater 50 feet long and 15 feet deep in a railroad siding three miles north of this northeast Arkansas town.

The explosion, felt in Arkansas, Missouri and Tennessee, ruptured a natural gas line and forced the evacuation of several hundred Corning residents before the gas was shut off.

The sheriff's office reported that the explosion and fire flattened one house about 300 yards from the scene and extensively damaged several others, but only one injury was reported.

The flattened house was unoccupied at the time. Cause of the explosion was not determined.

It came at 2:48 a.m. (CST), shattering downtown store windows three miles away and rattling windows in surrounding towns.

The 80-car Missouri Pacific Lines freight train, loaded with munitions and chemicals, was bound for the Red River Arsenal at Texarkana on the Arkansas-Texas border.

It had pulled onto a side track to let another train pass on the main line. MOPAC officials said.

Owners of the destroyed home, Mr. and Mrs. C.M. Rappert, were in St. Louis, deputy county collector Jess Watson said at the sheriff's office.

A half mile from the blast, Mrs. Glenden McGuire awoke to the crash of the explosion and was cut on the feet by flying glass. Her injuries were termed not serious.

Fire companies and civil defense crews from within a 50-mile radius poured into the town of 2,565 to fight the fire.

The siding is near a rice storage and drying elevator, serviced by natural gas, and officials said they halted firefighting efforts because of an unconfirmed report of a natural gas leak and the danger of more explosions from munitions and chemicals.

The area around the fire was cleared, but no evacuation of Corning residents was made.

## Emmet Gets \$1,460 in U.S. Funds

WASHINGTON (AP) — The Department of Housing and Urban Development has awarded additional federal funds to help four Arkansas cities with comprehensive planning.

Sen. John L. McClellan, D-Ark., said Batesville will get \$6,310, Emmet \$1,460 and Summit and Yellville \$2,460 each. McClellan said the grants are under the urban planning assistance program.

## DeGaulle Going on With Plan to Quit NATO

By DAVID MASON

PARIS (AP) — France said today that reform of the North Atlantic Treaty Organization is impossible and that President Charles de Gaulle's government is going ahead with plans to get out.

But the government expressed a willingness to talk over other mutual defense arrangements with the NATO allies.

A spokesman said after the weekly Cabinet meeting that France intends to take whatever measures she deems necessary concerning foreign military bases on French soil. He added that France is willing to discuss the consequences of such a move.

PARIS (AP) — The French government today said that no discussions on effective reform of the North Atlantic Alliance can be usefully undertaken, and that it is going ahead on its own to take all necessary measures to withdraw from the integrated-force system of the alliance.

A government spokesman said after a regular Cabinet meeting that "the French government is ready to engage in any useful discussions with Allied governments on the subject of practical consequences of the measures it proposes to take, and the dispositions to foresee in view of common operations in case of conflict."

Stripped bare, this apparently gave notice that France would sit down with her allies to talk about how they could act in concert in case of war.

## Rehearsals for Tuesday's Space Shot

CAPE KENNEDY, Fla. (AP) — Launch teams conduct 11 separate simultaneous countdowns today in a vital rehearsal for next Tuesday's Gemini 8 man-in-space flight.

Astronauts Neil A. Armstrong and David R. Scott were to wear their bulky suits and squeeze into the Gemini 8 spacecraft for part of the exercise, which was to last most of the day.

Major goal of the test was to make certain communications were functioning properly among the teams conducting the various counts.

The actual over-all countdown next Tuesday will be challenging because it involves the launching of two rockets. An Atlas is to blaze away from Cape Kennedy at 10 a.m. to place an Agena space vehicle in orbit.

Armstrong and Scott are to follow at 11:41 a.m. atop a Titan 2 rocket. They are to chase the Agena, catch it and attempt man's first linkup with another orbiting satellite.

On the second day of the planned three-day mission, Scott is to take a record space walk of nearly 2½ hours.

Armstrong, a civilian, and Scott, an Air Force major, will participate Thursday in a simulated flight during which several phases of the countdown and flight are rehearsed.

## Jaycees Plan Miss Hope Pageant

Hope Jaycees in a meeting this week made tentative plans for the annual Miss Hope Pageant which will be held sometime in April.

## Must Remove Stock From Bois d'Arc

Deputy Prosecuting Attorney Al Graves, announced today that he has received a directive from the Arkansas Game and Fish Commission concerning livestock grazing on the Bois d'Arc public hunting and fishing area south of Hope.

According to the directive, livestock damage to the Bois d'Arc levees amounts to more than \$15,000. For this and other reasons the Game and Fish Commission has requested that Mr. Graves' office give notice to all persons having cattle or other livestock on the Bois d'Arc Game Preserve to remove the animals within thirty (30) days.

Mr. Graves said that he is seeking the cooperation of all individuals involved and is hoping that the owners will realize that this action is necessary for the preservation and improvement of the excellent hunting and fishing now found in the Bois d'Arc area.

The extra cost would be charged to the Treasury's general fund, not the Social Security trust fund.

## War Tax Bill Amended to Include SS

By JOE HALL

WASHINGTON (AP) — Administration forces in the Senate try today to defeat a proposal to give a tax break to parents of college students.

The administration suffered one surprising setback on the \$6-billion tax bill Tuesday when Republicans succeeded in adding to the bill an amendment to grant Social Security benefits to some 1.8 million persons over 70 not now covered.

The amendment was approved by a vote of 45 to 40 and carries an estimated price tag of \$760 million a year. Whether or not it stays in the measure — provided the bill passes — would be decided when Senate and House conferees compromise differences in their versions of the legislation.

Administration leaders said they expected a close vote today on Sen. Abraham A. Ribicoff's amendment to give an annual tax saving of up to \$25 for college expenses. Annual cost of the proposal was put at \$1 billion, but the Connecticut Democrat said it would not take effect until 1968.

The Ribicoff amendment was defeated by only three votes in 1964.

Senate leaders were hopeful action could be completed on the tax measure later today.

It would reinstate excise tax cuts made recently on phone calls and car sales and would speed up collection of personal and corporate income taxes.

As submitted by the administration and approved Feb. 26 by the House, the measure would provide additional revenue of \$1.2 billion in the current fiscal year and \$4.8 billion in the fiscal year which starts July 1.

The Social Security amendment adopted Tuesday long has been pushed by Sen. Winston L. Prouty, R-Vt.

It was beaten last year 55 to 36 when offered as a rider to the Social Security health care measure. Democratic Senate leaders conceded this led them to understate its chances this time.

The amendment won votes of 26 Republicans and 19 Democrats Tuesday with 31 Democrats and 9 Republicans opposed.

Under the Prouty amendment, the 1.8 million persons would receive minimum Social Security payments of \$44 a month for an individual, \$66 for a couple.

The extra cost would be charged to the Treasury's general fund, not the Social Security trust fund.

## Melting Snow Ups the Water Supply

NEW YORK (AP) — Rain and continued runoff from melting snow brought the city's water supply to 54.2 per cent of capacity this week.

But the level was still below the normal 77.8 per cent.

New Data on Animal TB for County

Word was received this week from Dr. Paul Becton, Veterinarian in charge, Animal Health Division of USDA, Little Rock, concerning reaccriditation of this county on animal Tuberculosis.

In a letter to county agent, Calvin J. Caldwell, Dr. Becton said, "Recommendation for reaccriditation of Hempstead County as a Modified accredited area for Tuberculosis was approved by our Washington office February 17, 1966, for a period of six years, effective on February 1, 1966."

In order for the county to remain on a modified accredited basis at least ten percent of the cow population must be tested for Tuberculosis during the six year period and have a percentage of 0.2 percent infection the county agent said.

## Enemy Assault on American Camp Fails

By THOMAS A. REEDY

SAIGON, South Viet Nam (AP) — At least two Communist companies assaulted an isolated camp of U.S. Special Forces men and mountain tribesmen early today near the Laotian border. The attack failed.

The 300 Montagnard troopers and their 12 "green beret" American advisers beat off the attackers in a day-long battle around the triangular mud and log fortress, radio reports from the camp said.

During the barrage the Communists shot down an armed U.S. Army C47 transport sent to help the besieged garrison in the Ashua Valley, 60 miles southwest of Da Nang. Four men were killed in the crash.

Rescue helicopters brought out three wounded crewmen of the C47.

But heavy Communist fire prevented the helicopters from bringing out the dead.

About 200 Communists launched the attack at 2 a.m. At dawn, U.S. forces lost contact with the camp, raising fears it may have been overwhelmed as the Reds descended on it in the heavily wooded hills along the border.

Contact was regained late in the day and an American spokesman said the triangular mud and log fortress was holding out against the onslaught.

Some casualties were reported among the three companies of Montagnard defenders and their American advisers.
